

WAFFP COVID-19 Safeguards

Your safety is our priority

- We continue to strongly recommend everyone complete their vaccination regimen prior to attending our conference in person.
- We will require all committee members, exhibitors, and attendees to wear masks while inside our conference areas, regardless of vaccination status. Disposable masks will be provided for use.
- We will encourage everyone to use the sanitizers that we will have readily available throughout the conference areas. We will also have sanitizing wipes available.
- Breakfast and lunch will be served as individually boxed meals. The banquet dinner will be buffet style but there will be sanitizer set up at the tables, disposable gloves available, and plexiglass shields up. We will call up tables one by one to avoid crowding.
- Campbell's has strict standards in place for hygiene and cleanliness, and they have increased frequency of cleaning and disinfecting in public spaces.
- All committee members, exhibitors, and attendees will be subject to daily health self screening prior to entering the conference. Refer to the WAFFP COVID 19 Self Screening Check List found on our website, www.waffp.com.
