March 8, 2024

This two-part blended online and instructor led course has been designed by the Food Safety Preventative Controls Alliance (FSPCA) in collaboration with the FDA. By successfully completing this course, you will meet the requirements as a FSPCA Preventive Controls Qualified Person who can manage a food safety preventive controls program in accordance with the Hazard Analysis and Preventive Controls Rule of the US Food and Drug Administration.

### Remote Live Delivery through Zoom

We will be hosting instructor led portion remotely and live through Zoom. All participants will need to have access to a computer or laptop with the following:

- An internet connection – broadband wired or wireless (3G or 4G/LTE)
- Speakers and a microphone – built-in or USB plug-in or wireless Bluetooth
- A webcam or HD webcam – built-in or USB plug-in
- Due to group work, please try to connect with a laptop or computer and not a mobile device.
- Create a [Zoom account](#).
- You are asked to keep your video on. Instructors must be able to see your face for certification reasons.

Lead instructor for this FSPCA Preventive Controls for Human Food Course will be Dr. Girish Ganjyal.
